

14 August 1965

MEMORANDUM FOR: Mr. Bill Moyers

SUBJECT: Communist Forgeries

1. Herewith is a copy of a study just finished entitled "Communist Forgeries, 1961-1964". Prepared in the Agency as a follow-up to testimony given before the Senate Internal Security Subcommittee in 1961, it includes analyses of all the significant forgeries which have come to light during the period since.

2. Also attached is a copy of the testimony referred to above.

3. May I respectfully suggest that the President might be interested in leafing through these studies. Forged documents have been playing a noteworthy role in souring relations between the United States and uncommitted countries.
